

Ryan Brown

Full-Stack Developer

Developer determined to create the best experience in all situations. I have maintained a high standard of customer loyalty and service for 11 years. Being an integral part of the team, I share any advice that is needed. Being a team player is what I value in a Full-Stack Developer, someone that is willing to tackle it all. That's why I am a team player.

SKILLS

HTML • CSS • JavaScript • React.js • Node.js • MongoDB
• Mongoose ODM • Python • Express.js • PostgreSQL
Critical Thinker • Efficient Multi-tasker • Persistent

PROJECTS

General Assembly, Washington DC *Software Engineering Immersive* - Jan 2020 - Apr 2020

- Built and designed a web game based on the classic game Simon. [HTML, CSS and JavaScript.]
- Created a database and API with a book dataset, and deployed to Heroku.
[Express.js, Node.js, MongoDB, Mongoose ODM]
- Developed the backend, focusing on the database, server and user models with 3 other teammates to create a full-stack mobile application.
[Express.js, Node.js, MongoDB, Mongoose ODM, React Native]
- Built a command line application adventure game with python. [Python, PeeWee, PostgreSQL]

EXPERIENCE

Levy Restaurants, Nationals Park — *Stand Supervisor to Zone Manager* - Apr 2016 - Jan 2020

- Managed event teams of 500 members, while simultaneously meeting expectations of 44,000 patrons and executing company standards exceptionally.
- Devoted special emphasis to punctuality and worked to maintain outstanding attendance record, consistently arriving to work ready to start immediately

GameStop, District Heights, MD — *Game Advisor to Store Manager* - Jun 2008 - Jan 2015

- Increased customer satisfaction and repeat business through relentless pursuit of resolutions to problems arising from product failure, personal customer programs, protecting company reputation and building loyal clients.
- Resolved conflicts and negotiated agreements between parties in order to reach win-win solutions to disagreements and clarify misunderstandings.
